PROFESSIONAL SUMMARY

Frontend Developer and Computer Engineering graduate with hands-on experience building responsive, user-focused web applications using React, JavaScript, HTML, CSS, and Tailwind CSS. Passionate about creating clean, accessible, and intuitive user interfaces while writing maintainable, scalable code. Experienced in developing real-world projects including a facial recognition attendance system and a course management platform. A quick learner with strong problem-solving and collaboration skills, eager to contribute to a development team and grow as a frontend engineer.

EDUCATION

Ahmadu Bello University, Zaria, Nigeria

Sept. 2019 -Sept. 2025

B.Eng Computer Engineering

Williams School of Commerce, Zaria

Sept. 2015 - July.2017

National Examinations Council (N.E.C.O)

WORK EXPERIENCE

Networking Intern | Ahmadu Bello University, Zaria

Jun. 2024 to 2025

- Implemented LAN communication protocols in DNS Lookup App
- Developed multiple machine learning and AI-driven applications/models
- Participated in lab switch/router configuration sessions
- Conducted research in data encryption techniques.
- Earned several certifications during training across networking, AI, and Linux systems

Computer Engineering | Ahmadu Bello University

Aug. 2023

- Instructor - Python Bootcamp for Kids

Classroom Teacher | Gold Ladder College, Zaria

Jun. 2021 to 2024

- Taught Introduction to Computing to students
- Taught Mathematics to Students

PROJECTS

- Course Management Platform (Sept. 2024): Developed a platform for material sharing and assignment management with an integrated discussion forum.
- DNS Lookup app (2024): Developed a domain name lookup application that retrieves the ip address of a website
- BoileenFace (Sep, 2025): Developed a facial recognition attendance system that automate the process of staff/student attendance taking. It replaces traditional manual attendance taking with a secure, fast and seamless solution

TECHNICAL SKILLS

Languages: HTML, Javascript(ES6), CSS, Tailwind CSS, Responsive Design

Hardware: Arduino, ESP32

Soft Skills: Leadership, Problem Solving, Team Player, Time Management, Interpersonal Skills

VOLUNTEERING

- Tutor (Mathematics), Muslim Special Training Center (Sept 2019 - 2023)

PROFESSIONAL AFFILIATION

Professional Membership: Nigerian Society of Engineers (NSE)

Professional Membership: Council of Registered Engineers (COREN)
